Puffy, a surveyor's helper, and his boss go out to measure a tract. Puffy carrying the rod nearly backs over the precipice. The Jones family of tough eggs, who love to kill surveyors, drive off a pair of effeminate engineers with guns. Then Puffy backs into their hut, under the direction of his boss, who follows him in. The boss surveyor boasts his position to the pretty Jones girl until she tells him that her family are waiting outside to murder him. Then he generously awards Puffy the job of surveyor-in-chief. They try to escape from the house but are fired upon by the waiting Joneses. They disguise themselves as a giant woman, one sitting on the other's shoulders and manage to get a short distance from the house when the "woman" breaks in half, the halves running in opposite directions, followed by the shooting thugs, who fail to kill them and return to the hut to be spanked by their father.
